

## Plant Reproduction

What is a flower? Get to grips with the sexual life of plants and examine the fascinating world of flowers and their structures. What makes the perfect flower for reproduction? Why do some pollinators prefer certain flowers?

## Seed Dispersal Investigators

What do exploders, parachutes, hitchhikers and takeaways all have in common? Investigate the fascinating world of seed dispersal.

## Bug Party

Using a wide range of bug hunting equipment your pupils will discover what minibeast inhabit our garden. Are they insects? Do they have wings? How many eyes have they got? Together we will discover lots of exciting information about our multi-legged friends. Then create your own room to add to our minibug mansion.
